ponnampet ,virajpet taluq,kodagu

PROJECTS

SDMIT — Food Donation and Redistribution Platform *Feb 2025 – Present*
ujire,mangalore

- A full-stack MERN-based web application designed to bridge the gap between food donors
- (restaurants, event organizers) and receivers(NGOs, shelters). Currently developing
- donor,receiver, and admin dashboards with live status updates.

SDMIT — Currency Converter *Sep 2025 – Sep 2025*
ujire,mangalore

- A currency converter built with JavaScript allows users to quickly convert one currency to another using real-time or predefined exchange rates

SDMIT — Weather App *Oct 2024 – Dec 2024*
remote

- Project involves developing a user-friendly weather prediction application that provides real
- time and forecast weather data using an open weather API.
